## Critter Mobile kitchen station

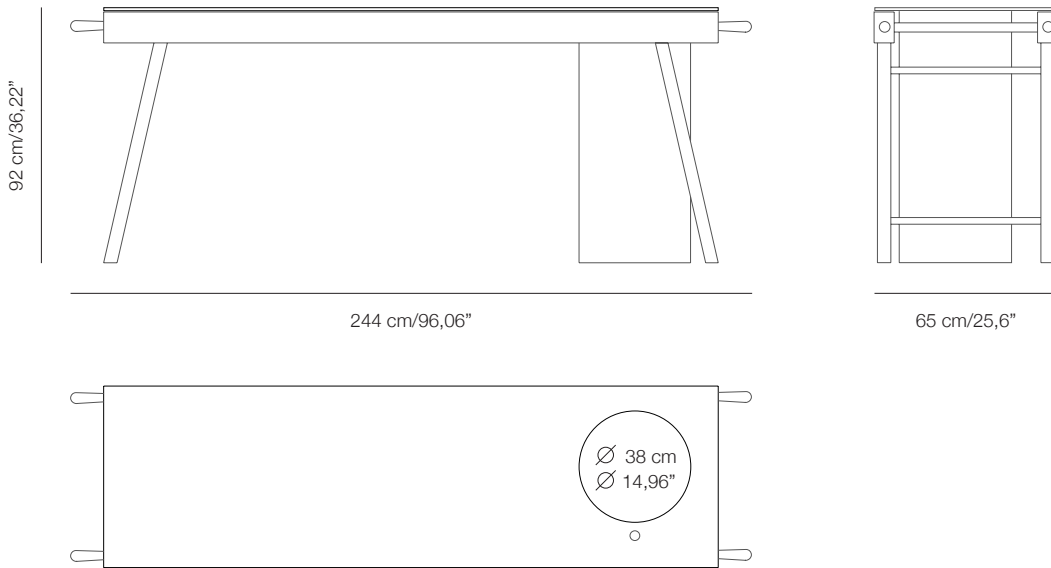

Designed by Elia Mangia

Critter is a free-standing worktop that looks to the essence of the kitchen, freeing it from all non essential components and opening it up for all to see.

Critter wants to break free from the notion that requires a kitchen to be attached to a wall and confined to a predefined area, by bringing food preparation to the centre of living spaces and restoring its convivial status, in a simple and informal manner.

The entire structure is in solid ash wood and can be assembled in just a few minutes by tightening 8 screws.

**Dimensions:**

**Material:** Solid ash wood
